Sample Nonprofit Business Plan

Executive Summary

Let Children Prosper is a nonprofit organization that provides educational resources to low-income families in the New Orleans, LA community. The organization was founded in response to the high school dropout rate in the city, which is disproportionately high among low-income students. Let Children Prosper's goal is to help these students stay in school and graduate with the skills they need to succeed in life.

Organization Overview

Let Children Prosper was founded in 2014 by Jamal Brown and Latonya Williams. The organization is a 501(c)(3) nonprofit and operates out of New Orleans, LA. Let Children Prosper's mission is to provide educational resources to low-income families in order to help their children succeed in school and beyond.

Mission Statement

Our nonprofit's mission is to provide educational resources to low-income families so their children can stay in school and graduate with the skills they need to succeed. Let Children Prosper believes that education is the key to breaking the cycle of poverty and helping low-income individuals and their families achieve economic security.

Vision Statement

Our nonprofit aims to expand our presence throughout New Orleans, LA by securing funding from both public and private sources. We also hope to reach schools throughout Louisiana and other states.

Products, Programs, and Services

Our nonprofit's vision is to provide educational resources to low-income families with children who are at risk of dropping out of school due to a lack of resources.

Our nonprofit works to equip these students with the skills necessary for achieving economic security, which makes them more likely to graduate high school and attend college or vocational school.

We aim for our nonprofit's services to be accessible throughout New Orleans, LA as well as schools across Louisiana and other states so that we can reach as many families in need as possible.

We hope that by offering free programs such as financial literacy classes and workforce development services, Let Children Prosper will help break the cycle of poverty by equipping low-income individuals with the skills needed for achieving economic stability. Listed below are some of our nonprofit's core programs.

- **Financial Literacy Classes:** These classes provide essential information about financial planning and budgeting so that families can make sound financial decisions for their children's education and future.
- **Workforce Development Services:** These services help prepare individuals for careers by teaching them essential skills such as resume writing, interviewing techniques, and job search strategies.

Market Analysis

Our nonprofit's target audience is low-income families with children who are at risk of failing school due to a lack of educational resources.

According to the National Center for Children in Poverty, "Although poverty rates declined during the 1990s, they remain high; 21 percent of American children under age 18 (16 million) were poor in 2010, compared to 18 percent (15 million) before the recession" (NCCP).

Let Children Prosper offers several core programs that provide resources such as financial literacy classes and workforce development services which our target audience needs to help them through difficult times and equip them with skills necessary for achieving economic security.

A study conducted by Tulane University reports that students living in New Orleans, LA are three times more likely to drop out of school than other students in Louisiana and the rates of high school dropouts among students living in poverty are approximately seven times as high as those living above poverty (Tulane University).

Given these alarming statistics, it is evident that our nonprofit is much needed in the area.

Customer Analysis

Our nonprofit's customers are low-income families who have children who are at risk of dropping out of school.

These families may not have access to essential resources that their children need in order to stay in school and graduate.

Let Children Prosper offers financial literacy classes and workforce development services that can help these students achieve economic security and break the cycle of poverty.

The table below shows data from a study conducted by Tulane University which illustrates that there is a significant need for our nonprofit's services.

Race/Ethnicity	% of Population Living in Poverty	Number of Low-Income Children	% of All Children Living in Poverty
African American	57%	107,000	71%
Hispanic	34%	47,000	30%
Caucasian	9%	16,000	10%
Asian	3%	4,000	3%
Native American	1%	1,600	1%
TOTAL	100%	181,000	100%

Source: Tulane University

The table above shows that there is a significant need for our nonprofit's services among low-income families who are of different races and ethnicities.

For example, the percentage of African American children living in poverty is 71%, which is significantly higher than the percentage of Caucasian children living in poverty (10%).

This data illustrates that our nonprofit reaches a wide variety of people who are in need and provides them with essential resources that they may not have access to otherwise.

Marketing Strategy

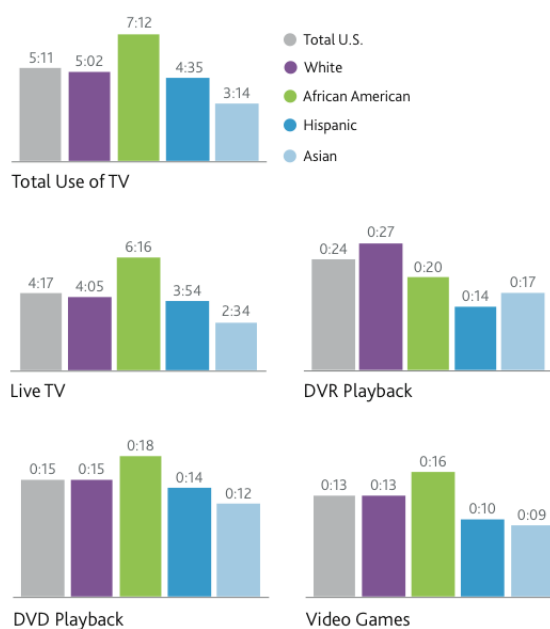

Our marketing strategy will include the use of print, radio, and television advertisements as well as social media platforms such as Facebook and Twitter.

We will also distribute flyers and brochures in local schools, community centers, and churches.

Lastly, we will host information sessions and workshops to provide more detail about our nonprofit's programs.

The table below shows data from a study conducted by Nielsen which illustrates that African American families are more likely to watch television than Hispanic and Caucasian families.

This data indicates that Let Children Prosper should focus on running television advertisements since this is the most effective way to reach our target audience.

We should also consider running radio advertisements, as African American and Hispanic families are more likely to listen to the radio than Caucasian families.

Lastly, we should focus on using social media platforms such as Facebook and Twitter to reach our target audience.

Operations Plan

Let Children Prosper is a nonprofit organization that offers workforce development services and financial literacy classes to low-income families who have children at risk of dropping out of school.

The organization's day-to-day operations will include providing these services to the target audience.

Staffing

Let Children Prosper will be staffed by a team of experienced professionals who are passionate about helping low-income families break the cycle of poverty.

Facilities

Let Children Prosper will operate out of a facility that is located in a low-income area. This facility will be equipped with the necessary resources to provide our services.

Supplies

Let Children Prosper will need to purchase supplies in order to provide workforce development services and financial literacy classes.

Goals & Initiatives

Our nonprofit has three primary goals which we will focus our efforts on achieving in the 20XX fiscal year:

- Goal 1: To provide quality educational programming and services to students in need.
- Goal 2: To increase the academic success of students in our programs.
- Goal 3: To secure funding to support our programs and services.

To achieve our goals, we will undertake the following initiatives:

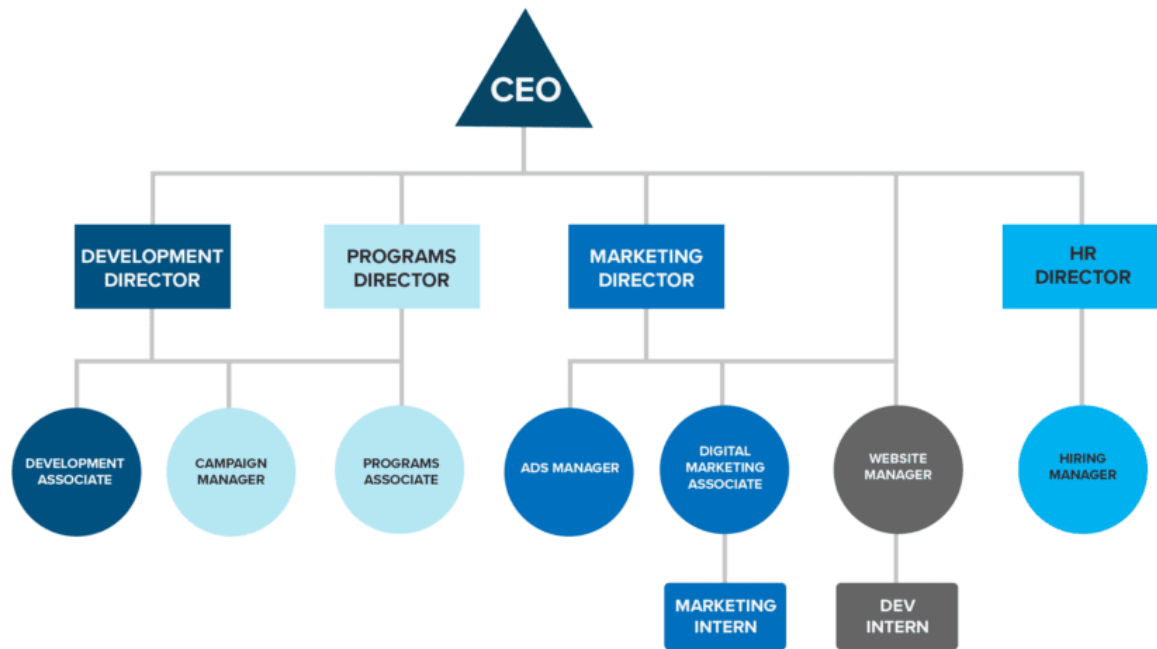

- Initiative 1: Expand our tutoring and case management programs to serve more students.
- Initiative 2: Conduct research on best practices in nonprofit education and implement these practices in our programming.
- Initiative 3: Hold fundraising events and seek corporate sponsorships to generate revenue for our nonprofit.
- Initiative 4: Increase the visibility of our nonprofit through marketing and communications efforts.

Management Team

Let Children Prosper will be operated by a staff of five people who will be responsible for managing the nonprofit's programs and services.

Let Children Prosper's organizational structure can be seen below:

Cash at End of Period	\$16,710	\$90,188	\$158,957	\$258,570	\$392,389

The nonprofit's expected cash balance of \$90,188 will be used to continue providing our essential programs and services to the community.

For 20XX, we expect that most of our funds will come from private donations; however, we require some donations for our operating expenses. As a result, the nonprofit plans to apply for grants this year.

Additionally, the nonprofit is always looking for opportunities to expand its fundraising efforts with events or corporate sponsorships. The nonprofit has also begun looking into ways we can use social media to develop a stronger online presence and increase brand awareness.

Let Children Prosper is committed to transparency and accountability. We will be publishing our nonprofit's annual report on our website which will include a financial overview as well as program and service highlights.

Fundraising Strategy

The nonprofit plans to seek out individual donors as well as larger contributions from businesses and other organizations.

Our nonprofit relies on donations from individuals, businesses, and other organizations.

In order to continue providing our essential programs and services, we need to secure funding from both public and private sources. Some of the ways in which we hope to secure this funding include applying for grants, holding fundraising events, and seeking corporate sponsorships.

In order to generate more donations, we will be undertaking the following fundraising initiatives:

- Annual Appeal Letter: This letter will be sent to past donors in order to request contributions for our nonprofit's education programs.
- Social Media Campaign: We will create a social media campaign on various platforms such as Facebook, Twitter, and Instagram to promote our nonprofit's work and request donations from the public.
- Online Fundraising Page: We will create an online fundraising page where individuals can donate to our nonprofit.

As a nonprofit organization, we aim to engage in donor outreach and online fundraising through websites such as Facebook and PayPal. We also plan to create a nonprofit blog where individuals can stay informed about our mission and learn how they can become involved with Let Children Prosper.

We are also exploring the option of hosting an annual fundraiser that will feature live entertainment, food, drinks, and opportunities to interact with nonprofit representatives.

Our nonprofit's Board Treasurer is also a member of the Grants Coordinating Committee for the nonprofit's parent organization which has resources that may be useful in securing grant funds for Let Children Prosper. Additionally, the nonprofit will begin looking into using social media such as Facebook or Instagram to increase brand awareness and improve brand recognition among our target audience.

The nonprofit has also applied for membership in the National Association of Nonprofit Organizations & Executives which will provide access to additional resources and training related to nonprofit management and fundraising.
